

# MODEL 150XP

## 12" Capacity Hand-Fed Chipper

The Model 150XP is the perfect machine for rental companies and governmental agencies looking for a **compact 12" capacity chipper**. These units have **powerful feed systems** with large hydraulic motors that will **pull whole trees into the chipper** and easily compress limby material, limiting the need to trim.

### SMALL CHIPPERS, BIG APPETITES.

- **Durable chipper disc** resists damage, limiting the need for replacement
- Impressive **17" wide throat opening**
- Variety of engine options make it **ideal for rental companies**

WATCH IT RUN!

### Extremely Easy to Service and Maintain

The chipper hood opens making it **easy to get at the knives**. Bolt-in knives are easy to change and reversible with two usable edges before the knives need to be sharpened. Knives may be able to be sharpened up to five or six times before disposal. All grease points are **easy to reach**, and all other service areas are **easy to access**.

### High-Velocity Discharge

Smooth transitions from the chipper housing to the discharge spout **eliminate hang-ups** that can plug the chipper or slow the discharge velocity of the chips. This transition, along with proprietary disc designs, combine to discharge chips at **maximum velocity**.

### Power Options

The engine provides all of the power to run the chipper and the hydraulic functions of the chipper. Because Bandit offers such a **wide variety of engine options** from all of the major engine suppliers, the customer can select the power unit that **best suits** the operator's specific needs from a performance standpoint as well as a service standpoint.

### Powerful Dual Feed Wheel System

Bandit's Model 150XP chippers are equipped with two horizontal 17" wide by 7-1/2" diameter hydraulic feed wheels and with 15-1/2 cubic inch hydraulic motors. The powerful **dual wheel feed system** makes it easy to chip large diameter material and multiple stems. Housed in Bandit's patented **Slide Box Feed System**, the feed wheels provide direct down pressure to help pull in and compress large limby material that would otherwise require extra trimming before processing.

## Many Ways to Configure Your Model 150XP

### Gas or Diesel Engine Options

Choose between high-power diesel or gasoline engines to best suit your fleet.

### Winch Option

For additional pulling power, add a winch to the 150XP and bring the trees to the infeed.

### Knife Saver Option

This hand-held knife sharpener touches up knives in the chipper.

### Standard & Custom Colors Available

Choose from six standard colors, or select a custom color to match your fleet.

Alert Orange

Bandit Yellow

Cat Yellow

Green

Black

White

### Specifications

#### Standard Dimensions:

Length (infeed tray open):	18' 4"
Length (infeed tray closed):	16' 10"
Width:	5' 10"
Height:	8' 2"
Weight:	5,800 lbs.
Hitch:	2-Position, 2-1/2" Pintle

#### Feed System:

Slide-box, (2) 17" adjustable springs, (2) horizontal feed wheels	
Displacement (CID):	15.5 Hydraulic Motors: 2

#### Chipper Disc:

40" diameter x 2" thick wheel with two knife pockets, 1/2" x 4-1/2" x 7-1/4" knives

#### Discharge:

Discharge: 360° Manual Swivel

#### Capacities:

Fuel Tank:	29 gallons	Machine Capacity:	12"
Hydraulic Tank:	12 gallons	Throat Opening:	14" x 17"

#### Engine Options:

66.8 - 142 horsepower diesel engine options available
