

MODEL 2650 TRACK

Hydrostatic Stump Grinder

The Model 2650 Track is an **extremely versatile machine** in the 60-horsepower stump grinder category, well-suited for tree services, municipalities, and dedicated stump grinding professionals. This is an **ideal backyard stump grinder** with excellent flotation, yet it packs the power to tackle large stumps and land clearing projects. The Model 2650 features a Kohler **67 - 74 HP tier 4 final diesel engine** with 4-wheel drive and comes standard with the Revolution stump grinder wheel.

POWERFUL. MANEUVERABLE. VERSATILE.

- Extremely versatile, portable stump grinder
- **67 - 74 HP tier 4 Engine options**
- **21" diameter cutter wheel with a 69" swing**

Cutter Dimensions

Impressive grinding dimensions add to the overall productivity of the Model 2650 Track, allowing it to tackle stumps of all sizes. Cutting dimensions include a cutter swing of 69", a cutting depth of 18.5", and a cutting height of 33", reducing the number of times the unit will need repositioned.

Durable Hydrostatic Drive System

The 2650 Track features a hydrostatic cutter wheel drive system. This system dramatically reduces the maintenance costs typically associated with a grinder of this size. This hydrostatic system is extremely reliable and eliminates drive belts, bearings, jack shafts, and the many parts associated with those systems. The cutter wheel is engaged by hitting a switch on the remote control or control panel, delivering power directly to the cutter wheel with virtually no parasitic power loss. The 2650 Track's superior hydrostatic drive system makes it extremely productive and reliable, providing years of service with reduced maintenance costs.

Options to Spare

The Model 2650 Track can be equipped with a variety of options to suit individual preferences and working conditions. Wireless radio control is available, allowing operators to control all machine functions from a remote location. The optional grading blade makes cleanup a snap. And custom colors are available to perfectly match your new stump grinder to the rest of your fleet.

Specifications

Dimensions:

Length:	135" with blade	Width:	35" to 55-1/2"
Height:	69" or 72"	Weight:	3,820 lbs
Fuel Tank:	17 gallons	Hydraulic Tank:	25 gallons

Cutter Wheel System:

21" diameter x 1-1/4" hydrostatic engagement Revolution wheel			
Number of Teeth:	32	Cutter Swing:	69"
Cutter Depth:	18.5"	Cutter Height:	33"

Drive System:

Self-Propelled, with a rugged, "Turf Friendly" rubber track undercarriage

Engine:

74 horsepower engine options available
